DATE	04/10/2026
TEAM ID	SWTID-2026-8904
PROJECT NAME	AI Study Buddy

MAXIMUM MARKS: 4 Marks

Brainstorming helps the team generate many possible ideas before selecting the most useful solution. For AI Study Buddy, the team focuses on common student study problems and AI-supported features.

Step 1: Team Gathering, Collaboration and Problem Selection

Area	Observed Need / Problem	Possible Idea
Study Support	Students need quick explanations for difficult topics.	AI tutor with simple explanations and examples.
Notes	Study notes are scattered across files.	Organized digital notes and search.
Revision	Students need regular practice.	AI-generated quizzes and revision questions.
Planning	Students may not know what to study next.	Personalized study plan and reminders.
Progress	Students need to see their learning progress.	Progress dashboard and study history.

Step 2: Brainstorm, Idea Listing and Grouping

Group	Ideas
AI Learning	Topic explanation, question answering, examples, summaries
Practice	MCQ quiz, short-answer quiz, instant feedback
Organization	Notes, topics, bookmarks, search
Planning	Daily goals, study schedule, revision reminders
Tracking	Quiz scores, completed topics, study history

Step 3: Idea Prioritization

Idea	User Value	Technical Feasibility	Priority
