Customer / Student Problem Statement Template

The problem statements focus on students who need accessible, personalized and organized study support.

PS	I am	I'm trying to	But	Because	Which makes me feel
PS-1	A student	Understand difficult topics quickly	I cannot always find clear explanations	Study materials are scattered and explanations may be too complex	Confused and frustrated
PS-2	A student preparing for exams	Practice questions regularly	I do not have enough personalized practice	Creating practice questions manually takes time	Stressed and unprepared
PS-3	A student	Plan and track my studies	I find it difficult to maintain a consistent routine	There is no single place for planning and progress tracking	Unorganized and less motivated
